

## PRESS RELEASE

Woven Concepts features new designs from our Odyssey Collection at ICFF 2016 - Booth #1955

THE ODYSSEY COLLECTION | A breakthrough, three dimensional and multi textural rug collection, inspired by NASA imagery. Distressed wool and natural silk are hand knotted to create three levels of visual and tactile finery. We have created a unique vintage texture to compliment the contemporary sensibility of Odyssey's designs and colors. The Odyssey Collection displays industrial modern aesthetic with an accent of cutting edge splendor. Through innovative design, Woven Concepts honors the pioneers of space aviation.
