Hastings Tile & Bath Unveils New Bath Collections at ICFE 2016

New Tubs and Bath Furniture Take Bath Design to a New Level

RONKONKOMA, NY— Hastings Tile & Bath, the importers and distributors of fine contemporary bath products will again be exhibiting at the International Contemporary Furniture Fair 2016 (ICFF) with a collection of bath tubs and bath furniture that are certain to create a buzz at this year's show. This year, Hastings' will be displaying two new tubs, as well as a full complement of VOLA faucets and showerheads; shown in glorious copper finishes.

Here is a taste of what to expect:

VOLA

VOLA's Spa Collection – Invigorating, stimulating, refreshing: Improved circulation is the reward for anyone brave enough to switch their shower from “hot” to “cold”. For centuries, Europeans have believed in what they call ‘spa methodology’, which extols the virtues of cleansing the body by using the contrast of warmth (via steam) and cold (via water.) While the intention is for these products to be used ‘cold’, they can be combined with standard shower mixers to be used as both hot and cold.

Tubs

Two of Hastings' newest tubs, Blade and Tubes are geometrically interesting, free-standing tubs each with its own unique shape and style. The tubs are manufactured in Italy and are made from durable and silky smooth resin.

Blade

Tubes

Tubes is a free-standing marvel with its combination of rounded bottom supported by stainless steel legs, and it's all one piece. Tubes dimensions are: 70.87 inches long, 31.5 inches wide and 22.4 inches high. Its finish is soft white with stainless steel feet.
