Come and go with ease with NakNak's new entranceway objects

#### About company

NakNak works with the most exciting and original designers from around the world to create simple, functional and beautiful objects that help organize your space.

Based in a 30-year-old, family owned metal workshop in Taiwan, our products are mainly made using wire bending and sheet folding techniques that require great experience and workmanship. We believe this handcraft and expertise is worth preserving and passing on to future generations.

Inspired by the 'knock knock' sound of the metal workshop, the name NakNak represents the skilled touch of the craftsman and the very material that is at the heart of all our products.

Our aim is simple. We want to bring organization to life.

If you need more information about NakNak, please contact Marketing Director Shenyu Pien at [shenyu.p@naknakdesign.com](mailto:shenyu.p@naknakdesign.com)

#### About 2016 ICFF

NakNak began its first year at the International Contemporary Furniture Fair in New York, and we kept exploring people's entranceway needs. A comfortable and organized entranceway offer a warm welcome and cozy feelings to you and your guests when you arrive. NakNak invited Mika Tolvanen and Peter Andersson to join us and to present new designs for entrances and halls at the 2016 ICFF.

WIRE ALPHABET is the extension of the WIRE NUMBER system for outdoor and indoor entrances. Inspired by the beauty of customized door numbers on old streets and downtown neon lights, WIRE ALPHABET makes your entrance more recognizable, while identifying your space in a delicate and unique way.

Every WIRE ALPHABET is unique because of the specialized production method. After the necessary machine-made processes, skilled craftsmen bend each wire into several specific curves to form every letter.

**HOOP**

**Material**

Steel · Cast iron

**Size (cm)**

W25 x H40 x D10.5

**Designer**

Mika Tolvanen

HOOP is a modern take on an antique umbrella stand that designer Mika saw at a flea market. A slender oval wire suspended above a cast iron base offers stable umbrella storage with a compact footprint.

**WALL GUTTER**

**Material**

Steel

**Size (cm)**

Large:

W61 x H2.8 x D3.8

Small:

W40 x H2.8 x D3.8

**Designer**

Yenwen Tseng

WALL GUTTER is a minimal shelf that keeps everyday personal belongings for basic needs. It offers an organized way to store your keys, letters, wallets, and pocket book.

**SUPER  
NARROW\_slim**

**Material**

Steel

**Size (cm)**

W15 x H30 x D21

**Designer**

TAF

The entrance or hallway is often a very narrow space, which TAF took as a challenge to make a cabinet set that fit SUPER NARROW proportions. This cabinet was inspired by the aesthetics of a blue garbage bin outside their studio in Stockholm. It is ideal for organizing your accessories, gloves, scarves, and pocket books.

**DUAL**

**Material**

Steel · Wood

**Size (cm)**

W44 x H21.5 x D1.2

**Designer**

Peter Andersson

DUAL is an iconic hanger with an extra hook for bags, or for adding another hanger. The extra function saves space and creates order among clothes and bags. The double function turns the hanger into something unexpected and expressive.
