

### **Calyz Textiles**

This company addresses design, sustainability, women empowerment and aesthetics.

The innovation in our products is based on developing traditional textile techniques for modern use.

We accept commissions for custom design work for product development and Production.

We also execute production projects for exports in our infrastructure where rural women are trained for quality work and stringent time lines.

### **Calyz Production Projects**

Calyz Textiles produces handcrafted textiles in the home furnishings/apparel category. The product range includes quilts, duvets, pillows, cushions, scarves and baby bedding.

Beauty of our textiles is not just the handwork... But how they connect all.

About 600 rural women are trained for handwork and skilled to follow all export norms of time and quality.

#### **Summer 2016**

This Summer we bring a collection of quilts and pillows. All these are handcrafted and have a look derived from modern adaptations of Mosaic, cutwork and quilting. We strive to innovate the techniques to further refinement.

Bedding being our prime focus for this season we bring you an eclectic range of the most unique quilts and pillows that will lend their comfort to your sinews

Vincent concludes by saying, "The women I work with have the most inspiring energy. No matter what they go through, they are always extremely enthusiastic to do their work. I hope to design, develop, and bring them continuous and abundant orders to sustain this positive sense of energy. With every stitch there is optimism for a better future. This is the sole motivation for all the women who continue to work tirelessly day after day."
