

MONTI-DECANTER

Monti-Decanter
MONDEBP
MSRP: \$75.00

As an addition to the successful Monti-Collection, this ultra clear, lead-free crystal decanter uses a design that'll steal the show at your next dinner party, and noticeably change your pours for the better.

When wine is decanted, the oxygen exposure allows the flavors to develop in seconds, not years, so you get a brighter bouquet and clearer tasting notes. While pouring, the wine falls on top of the peak and aerates in a beautiful cascade down the mountain.

Holding a standard 750ml bottle of wine, the decanter and its glass center peak, showcases the inspiration of the Italian Alps.

INCANTER

Incanter
INCBP
MSRP: \$65.00

The Incanter, designed by Sempli, is a hand-crafted vessel made from lead-free crystal, with a borosilicate rod that capably holds your ingredients but won't weigh down the decanter. The Incanter draws upon Sempli's playful and sophisticated aesthetic, and can imbue a unique flavor to your spirits, cocktails, hot and cold brewed teas, sparkling water, or homemade salad dressing. Simply cut up your favorite flavors, place them in the infuser tube and spin away!

NERO

Limited Edition

Nero Limited Edition Box Set

NERBX
MSRP: \$400.00

Nero glassware has been crafted from a striking black onyx crystal. As a nod to Coco Chanel's "little black dress," the Nero Limited Edition exemplifies simple elegance and sets a new standard of luxury glassware. It is accompanied by Sempli's latest accessory: the walnut stopper. Hand-made by master Amish woodworkers, it rests atop the Vaso decanter to complete this limited edition collection. Each piece is engraved with the designer's signature and comes in an exclusive collector's box.

Nero is the new black.
