**FOR IMMEDIATE RELEASE**

**Outdoor Edge® Introduces Its First Replaceable Fixed-Blade Knife –  
The RazorMax**

**DENVER (November 27, 2018)** — The overwhelming popularity of the Outdoor Edge replaceable-blade folding knives—the Razor Pro, the RazorBlaze and the RazorLite EDC™—has led to the introduction of the RazorMax, the company's first fixed-blade knife to also feature the patented RazorSafe replaceable blade system. The Outdoor Edge RazorMax ascends to a new level by becoming first in the line to accept both 3.5-inch drop-point replacement blades as well as a new 5-inch boning/fillet blade, making it the complete solution for preparing big game, from start to finish. The new RazorMax allows you to field dress, skin, debone and process game into perfect cuts for the table—all with a single tool.

With two blade sizes available for the RazorMax that interchange quickly, safely and easily, the perfect blade for the job is just a button push away. The included blades are Japanese 420J2 stainless steel, heat treated and hand finished to a surgically sharp edge. The 3.5-inch general-purpose drop-point blade is a true workhorse for field-dressing and skinning. The 5-inch boning/fillet blade is designed for processing meat quickly and efficiently. Each blade locks securely into the RazorMax's black-oxide coated blade holder providing the strength and rigidity of a traditional knife to the 3.5-inch blade, while allowing ample flex for the 5-inch boning and fillet blade.

The thermoplastic rubber (TPR) grip on the RazorMax is molded with an alternating pattern of Outdoor Edge's signature mountain range for a very positive nonslip grip, and the ergonomically shaped handle prevents tiring and cramping during extended periods of use.

The RazorMax is available with both black and blaze orange handles and comes complete with a lightweight nylon belt sheath that features a removable pouch for storing spare blades. It will be available in the second quarter of 2019 for a suggested retail price of \$79.95

### **About Outdoor Edge**
