HAIX® USA Releases Black Eagle® Tactical 2.0 GTX High Side Zip

5 Lexington, Kentucky, September 21, 2018: HAIX® North America is excited to announce the release of their newest boot, the Black Eagle® Tactical 2.0 GTX High Side Zip. This is the perfect choice for anyone that is looking for something lightweight and breathable with the convenience of a side zipper for quick in and out of the boot. Built with trail running technology, these boots are perfect for running down a suspect or taking a leisurely jog in the park. They are extremely lightweight, durable, and offer all-day comfort, even after long hours on your feet.

10 This version of the Black Eagle Tactical boots a few differences when compared to the other models. The upper material is made of the highest quality, waterproof bull hide leather and a soft microfiber design. Built with Sun Reflect technology, these shoes are highly breathable and durably waterproof with a GORETEX® inner liner which keeps the feet drier and more comfortable whether on or off duty. The metal-free design, including the waterproof zipper, makes these boots airport friendly, so they can be worn when working with security surveillance equipment or metal detectors. And, for the first time, this Black Eagle® version is offered in Medium and Wide widths for those who need a little extra room.

15 The Black Eagle® Tactical 2.0 GTX High Side Zip also features non-slip soles so professionals can keep their footing, whether on the job, in the field, or just taking a walk in the park. The soles are also shock absorbing and non-marking along with being fuel, oil and heat resistant. PU is injected into the sole for optimal comfort and heat insulation. There is also extra padding in the ankle area for additional support and stability.

20 Just like the other boots in the Black Eagle® line, the Black Eagle® Tactical 2.0 GTX High Side Zip comes with a one-year manufacturer's warranty with the option to add an additional year just by signing up at www.haixusa.com

25 For more information on the release of the Black Eagle® Tactical 2.0 GTX High Side Zip boot, visit the www.haixusa.com or call **866-344-4249**.
