

**Press Release  
November 2018**

**Introducing the latest exclusive collection from Longthorne Gunmakers**

This exclusive collection is 100% English made and available in 12, 16 and 20 bore featuring a gold-plated trigger, extended full-length trigger guard, engraved stock cap and personalised stock oval. With our patented barrel technology, the barrels are made from one piece of metal with no soldered joints ensuring we create a lightweight, strong gun with low recoil.

The Renaissance Collection displays beautiful deep engraving featuring gold inlaid game birds and flowers which have been finished by hand.

Your guns will be presented in a Malton Bridle Leather double gun slip and in a bespoke leather-bound presentation case so that you have a protective case for all occasions.

We offer the opportunity for you to customise specific aspects of our gun on request and will work with you to create a masterpiece you will be proud of. Plus, we offer in-house custom gun fitting to ensure that the gun is perfect for you when we finish.

Any orders placed during November 2018 will be available for the 2019 game season.

**SRP approx.** US\$43,944 (plus any applicable duties & taxes and freight)
