

FOR IMMEDIATE RELEASE:

December 9th, 2018

Unique-Grips

Unique-ARs now offers the versatile Unique-grip. The Unique-ARs Grip customizes the AR platform in a way no other does. This completely customizable Unique-Grip perfectly conforms to each shooter's hand, regardless of size, shape, strength or dominance. This ergonomic pistol grip adjusts exactly to your hand to reduce fatigue and improves performance. The patented functionality of the grip allows it to compensate for the natural twist of every shooter's hand. Instant fit, instant comfort. Made of space-age polymers this grip easily installs on all mil-spec AR platform rifles. Simply grip it, lock it, and fire away. The weight of the Unique-Grip is 4.2 oz.

The new **UAR Unique-Grip** is designed with the individual shooter in mind. This grip has a revolutionary new design which allows for a perfect fit for each and every shooter's hand. With a simple quick adjustment, it can go from a righty to a lefty, from a large hand to small hand, to a perfect fit every time. The grip molds to the shooters hand, but can be reset quickly for a new shooter, or new hand position.

The Unique-Grip is available for immediate purchase at Unique-ARs.com or Unique-Grips.com
