

## Armor Express to Highlight Mission-Ready Protective Solutions at SHOT Show 2019

*Company to showcase latest advancements in ballistic systems, carriers, hard armor and accessory offerings for the Domestic and Federal Law Enforcement, Corrections, Fire/EMS, and Security Markets*

**CENTRAL LAKE, MI – January 17, 2019** – [Armor Express](#), a leading manufacturer and distributor of high-performance protective solutions for the Domestic and Federal Law Enforcement markets, Department of Defense and First Responders, will unveil its newest innovations in ballistic technology, carrier designs, hard armor applications, and accessory tools at the [2019 Shooting, Hunting, Outdoor Trade Show \(SHOT Show\)](#), in **booths 31303 and 31403**. Organized by the National Shooting Sports Foundation, the conference is slated for January 22-25 at the Sands Expo Center in Las Vegas, Nevada.

“We’re excited to debut our latest protective armor advancements and look forward to engaging with end-users and our strategic partners at this year’s SHOT Show,” said Frank Cappo, Vice President, Sales. “Our new and enhanced product line-up incorporates the most cutting-edge technologies and industry best standards to better protect our customers and ensure peace of mind in all mission-critical situations. Over the past year, we have invested significant resources to innovate carrier designs, enhance our hard armor solutions and develop complete systems, many of which will be on display. Our team looks forward to meeting with our nationwide distribution, supply chain and industry partners as well as the end-users who each year, provide us with invaluable insight so we can advance technologies on their behalf.”

Visitors will see first-hand the latest designs and assortment of concealable, overt and tactical carriers second to none in the industry. These include the:

- ❖ **American Revolution Concealable Carrier** – Provides maximum comfort, breathe-ability and durability. It features low-profile shoulder padding, moisture-wicking and anti-microbial material, patented Easy Grip Side Straps™ for quick donning/doffing, and is available with a fitted female carrier.
- ❖ **Fearless Concealable Carrier** – This premium covert armor solution features a proprietary yoke design which offers comfort and concealment by masking the armor profile typically seen through the wearer’s shirt. The yoke also increases adjustability and load distribution of the ballistic armor panels.
- ❖ **Traverse Overt Patrol Carrier** – Easily converts from a concealable soft armor into a front zip-side opening system. This vest offers both MOLLE and Dress configurations along with optional features to meet departmental requirements. It is available in either a LEGACY or new BRAVO configuration.
- ❖ **Hard Core PT Carrier** – A low-profile option that is adjustable in both the shoulders and waist. The vest features AE’s Dynamic Cummerbund System allowing the user to breathe and move much more efficiently. Shoulder strap geometry features enhanced ergonomics and communication channeling.
- ❖ **Lighthawk XT 3.0** – Now built on the widely accepted SPEAR BALCS ballistic cut, the vest provides ample coverage while maintaining a more aggressive architecture. Improved carrier technology includes an MRM Vent System, upgraded Advanced Shoulder Pads, and interchangeable cummerbund system with quick release options.

- ❖ **The Fearless Tactical Carrier** – This adaptable and fully adjustable plate carrier provides optimal coverage without sacrificing mobility. Armor compartments can hold multiple size rifle plates and soft armor inserts. The vest features a 4-point, quick-release system that instantly drops the carrier, for reassembly in seconds.
- ❖ **Special Assignment Unit (SAU) Plate Carrier** – The streamlined, lightweight and modular SAU is available in MOLLE or Laser Cut configuration and features a Quad Ventilation Liner (QVL) system, Advanced Shoulder Pads, optional COBRA® Alpha Quick Disconnect Cummerbund, and more.
- ❖ **The Fearless PC** – This state-of-the-art plate carrier system features a laser cut attachment platform and can be customized with either the TUBES® or COBRA® Alpha quick release Dynamic Cummerbund systems with accessory sleeves, so the wearer can kit out just the way their mission requires.
- ❖ **The Active Shooter Response (ASR) Faction** – A ‘one-size-fits-most’ plate carrier with an unsurpassed range of adjustment. This cost-effective solution addresses large or small agencies looking for a plate carrier that fits most common sized hard armor rifle plates, along with the widest range of body types.
